TECH BULLETIN NUMBER: 0113

DATE: January 7, 2005

Subject: ME-RC v1.0

Models affected: ME-RC remote panels

V1.0 for the ME-RC adds the following features to the remote panel:

- New Battery Type "AGM2" for Deka AGM battery
- Shows MS2812, MS2012 under "models"
- Shows "Internal Fault-2", -3, or -4 for troubleshooting purpose
- Shows "Back Feed Fault" if ac input is wired to ac output
- Power Saver Mode added. LCD backlight and all LEDs turn off after 15 minutes if no soft keys or encoder button is pushed. Text remains on screen at all times. Fault LED and Backlight comes on and *stays on* if fault occurs.
